

AI WITHOUT GETTING BURNED

Grab a seat. Open your laptop. Three things before we start.

- 1 Get on the wifi.
- 2 Go to claude.ai and sign in, or make a free account.
- 3 Put your name on a tag so the person next to you knows who you are.

AI WITHOUT GETTING BURNED

In ninety minutes you build three tools,
on your own laptop, that work in any AI
you pick up. Tonight's, next year's,
whatever comes after that.

WHAT TONIGHT IS

THIS IS

Hands-on. Your laptop stays open the whole time.

You build. I am not demoing at you.

Everything you make tonight is yours, and it moves anywhere.

If you leave with nothing installed, I did this wrong.

THIS IS NOT

A software pitch. I am not selling you a tool.

A coding class. Nobody writes code tonight.

A list of 40 apps you will never open again.

HERE IS THE PLAN

7:00	What AI is, in plain English
7:16	Set up your base, so the tool knows your business
7:22	Build the Decision Council, the one I use on my own calls
7:50	A live look at what this does on a real business
8:10	Build the Simplicity Check
8:20	What I do next, and what you do next

STRIP MODULE 266

IT IS ALL ON ONE PAGE

catalystworks.consulting/kit/

- ① Every slide from tonight is already on it. Put the phone down, nobody needs a photo of a slide.
- ② Every prompt you are about to build is on it too, with a copy button. You will be in this page all night.

Open it now and leave the tab open.

DETAIL · SCAN TARGET, SCALE 1:1

HERE IS HOW OWNERS ACTUALLY GET BURNED

The burn is lock-in. It is not the robots.

It is picking one tool, wiring your business around it, and then the tool changes, the price moves, or it stops being the one everybody recommends. Now you start over. Again.

STRIP MODULE 266

FIG. 07 · THE WAY OUT

TOOLS CHANGE. PRINCIPLES DON'T.

I went from ChatGPT to Gemini to Claude, and a few others since, and I never lost a step. Not because I picked right. Because what I own is the way I work with these things, and that moves.

THE SIX THAT TRANSFER

It predicts from what you give it. **What you hand it is the whole job.**

Give it your context once. **Reuse it forever.**

Anything you repeat, **turn into a saved recipe you own.**

Agentic means it does the work, not just answers you. **You delegate.**

Pressure-test your thinking, then simplify it.

Own it. Move it. Never get locked in.

PLAN · SIX STRIPS, 1:20

$6 \times 220 = 1320$

IT IS A PREDICTION MACHINE, NOT A BRAIN

Garbage in is not an insult. It is a spec.

It reads what you gave it and predicts what should come next, one piece at a time. That is the whole trick.

So a vague ask gets a vague answer. Every time. The fix is on your side of the keyboard.

STRIP MODULE 266

“AGENTIC” JUST MEANS IT DOES THE WORK

You stop asking. You start delegating.

Ask a question, get an answer. That is a chat.

Give it a job, and it goes and does the steps. That is agentic. Same machine, different assignment.

STRIP MODULE 266

NOBODY IS BACKSTAGE

The page you registered on and the reminder emails that got you here tonight both run on tools I built and I run myself. I am one person. There is nobody behind the curtain.

That is the part you want. Not the chatbot.

STRIP MODULE 266

DO THIS NOW

- ① Open claude.ai.
- ② Make a new Project. Name it after your business.
- ③ That is it. Wave if you are stuck and I will come to you.

Everything else tonight lives inside that project.

STRIP MODULE 266

THE BUSINESS BRAIN

Context once. Reused forever. And it moves to any tool you ever switch to.

Fill it in once. Paste it in once. From then on every answer comes back about your business, in your voice, with your prices, instead of generic advice for a business that does not exist.

STRIP MODULE 266

FILL IN YOUR BRAIN FILE

Short answers. Nobody is grading this. Then paste the whole thing into your project instructions.

02	My prices are
03	I sell
04	My tone is

SECTION 02 · THE MAIN EVENT

THE DECISION COUNCIL

The thing I actually use on my own calls. You are about to have it too.

PLAN · ONE STRIP, MOTIF BAND, SCALE 1:2

SECTION A-A · WARP AND WEFT, SCALE 4:1

TITLE THE DECISION COUNCIL		
SHEET 15 OF 36	REV 1	SCALE 1:2
ZONE B2	SHEETS 36	DRAWN BOUBACAR

FIVE ADVISORS. THEN A CHAIRMAN.

THE CONTRARIAN	argues hard against you.
FIRST PRINCIPLES	names what you are assuming, and which assumption is shaky.
THE EXPANSIONIST	describes the bigger version you talked yourself out of.
THE OUTSIDER	hears it cold, with zero context, like a smart stranger.
THE EXECUTOR	gives you the first move and the thing most likely to kill it.

Then they read each other. A chairman steps out of the five and calls it. Proceed, change, or kill.

PASTE THIS IN

You are my Decision Council. When I give you a decision, work it in three passes.

PASS 1. Five advisors. One short paragraph each.

1. THE CONTRARIAN: argue hard against the decision.
2. FIRST PRINCIPLES: list the assumptions I am making and which ones are shaky.
3. THE EXPANSIONIST: describe a bolder, bigger version of this.
4. THE OUTSIDER: react with zero context, like a smart stranger hearing it cold.
5. THE EXECUTOR: give the first concrete step and the single thing most likely to kill it.

PASS 2. Peer review. Each advisor reads the other four and answers in one line:
which one is strongest, and what did all five of us miss?

PASS 3. The Chairman. Step out of the five and close it out.

- Where do all five agree? That is the solid ground.
- Where do they split? Name the split. Do not smooth it over.
- What did the peer review catch that no single advisor saw?
- VERDICT: proceed, change, or kill. One sentence, and why.
- The first move, this week.
- The one question only I can answer.

Be direct. No flattery. Do not agree with me by default.

My decision is: [paste your decision here]

DO THIS NOW

- 1 New chat, inside the project you already made.
- 2 Paste the instructions.
- 3 Save.

That is the whole install. You now own it.

STRIP MODULE 266

NOW GIVE IT A REAL ONE

Not a test. Not “should I get a dog.” An actual decision sitting on you right now.

- ① Do I hire the second tech or wait.
- ② Do I raise prices in September.
- ③ Do I let go of the client who pays late.
- ④ Do I sign the lease.

Type it in. Read what comes back. Then tell the person next to you which one stung.

THE ONE YOU DIDN'T WANT TO READ

If all five agree with you, your decision was probably not a decision.

One of those five usually says the thing you have been avoiding. That is the whole point. It has no reason to be nice to you, no job to protect, and no interest in your feelings about it.

STRIP MODULE 266

ADD ONE LINE

“Assume this failed badly six months from now. Walk it back and tell me why.”

Same council. Different job. It tells you how this goes wrong before it costs you anything.

Cheapest insurance in business.

For every time you are about to build something twice as complicated as the job requires.

TITLE THE SIMPLICITY CHECK		
SHEET 23 OF 36	REV 1	SCALE 1:2
ZONE B2	SHEETS 36	DRAWN BOUBACAR

FOUR QUESTIONS

- 01 Where is this overcomplicated?
- 02 What is the simplest version that still works?
- 03 Am I skipping the basics?
- 04 What can I cut right now?

I run this on myself constantly. It is rude to me weekly.

STRIP MODULE 266

DO THIS NOW

- ① Same project. New chat.
- ② Paste the instructions from page 2.
- ③ Give it something you are currently overbuilding.

Brace yourself for question three.

STRIP MODULE 266

LOOK WHAT YOU JUST DID

BUSINESS BRAIN	makes every answer about your business.
DECISION COUNCIL	pressure-tests your real calls.
SIMPLICITY CHECK	cuts what does not need to exist.

Three things you built yourself, sitting on your own laptop. They work in any tool you switch to, and nobody can take them or price you out of them.

STRIP MODULE 266

A HUMAN APPROVES. THE AI DRAFTS.

Nothing that carries your name goes out without
you reading it.

Not a quote, not a contract, not an email to a customer. That is the
brake pedal, and it is the whole safety plan.

FIG. 28 · THE PART THAT OUTLIVES THE TOOLS

TOOLS CHANGE. PRINCIPLES DON'T.

- 01
- It predicts from what you give it.
- 02
- Context once, reused forever.
- 03
- Anything you repeat becomes a recipe you own.
- 04
- Agentic means you delegate, not just ask.
- 05
- Pressure-test, then simplify.
- 06
- Own it. Move it. Never get locked in.

The tools on this screen will look dated. This list will not.

SHEET 28 OF 36	REV 1	SCALE NONE
ZONE C1	SHEETS 36	DRAWN BOUBACAR

DO THIS NOW

A skill is the tool you just built, saved to your account instead of to one project.

- ① New chat, inside your project.
- ② Paste the packaging prompt from your kit page, under 04 Keep it forever.
- ③ A file comes back. Take it. No file, take the ready made one.

Your kit page has all of this with a copy button, under 04 Keep it forever.

STRIP MODULE 266

SWITCH IT ON

- ① Settings, then Capabilities. Code execution on.
- ② Customize, then Skills. Different menu.
- ③ Plus, Create skill, Upload a skill. Pick your file.
- ④ Switch it on.

Then open a brand new chat and ask for your council.

STRIP MODULE 266

I WILL DO THIS WITH YOU. FREE.

- 01 One working session, 45 minutes, just you and me.
- 02 I look at how your business actually runs right now.
- 03 You leave with a written shortlist: the one place AI pays you back first, and where it is a waste of your money this year.

No deck. Nothing to sign. If the answer is “not yet,” I will say that.

THINK OF ONE OWNER

One person who should have been in this room tonight. Not a list. One.

Send them the next date. I would rather fill the next room because you told someone than because I bought an ad.

A

WRITE IT DOWN

Pick one thing you have to decide by Saturday.

Not someday. Saturday.

B

Run it through what you built tonight.

If there is one you would not say out loud in this room, start with that one. It will not flatter you, and it cannot repeat it.

Friday morning I am going to ask you what happened.
